## Airborne Digital Audio Management System

Orbit offers you the ultimate audio management system - the ADAMS. This highly intelligible and secure Airborne Digital Audio Management System (ADAMS) was designed to meet the specific needs of advanced large crew aircraft such as commercial airlines, transportation, tanker and special mission applications.

The ADAMS is a fully digital (audio & control), secure audio management system that integrates the routing and distribution of audio & data between crew members, maintenance crew, technicians and the host aircraft's communication data & recording systems. ADAMS supports up to 20 full capability users, 8 intercom only users, 16 radios and 31 receivers, 6 recording outputs, discrete and an internal intercom network.

Based on a modular, high-performance, open design, ADAMS is a COTS (Commercial-Off-The-Shelf) system, adaptable to all sorts of airborne applications (large to small platforms) to provide a complete interface as well as an advanced DSP-based voice. Providing crisp and clear audio communication, ADAMS will drive you to success.

---

Specializing in the delivery of audio management systems for over 40 years, Orbit pioneered the industry's shift to digital communications technology. Our dedicated 24/7 service team delivers high levels of service and responsiveness to both customers and partners. With thousands of installations worldwide, Orbit's solutions are deployed on myriad platforms including the F-16V, T-7A, EMB-99, C-295, C-235, C-130, KC-135, King Air 350, P-3, F-15, F-16, MIG 21, CH-53, Mi 8, T-38 and more. Orbit's customers consist of many of the world's aviation leaders, such as Airbus, Boeing, Lockheed Martin, Collins, Embraer, Gulfstream and Bombardier.

Our proven AMS product offerings are certified to meet the stringent standards and specifications of the most demanding users, including the US Navy and US Customs and Border Protection agency.

---

### Benefits

- Superior Cross-Talk isolation
- Simultaneous Red/Black (optional)
- Redundancy
- High reliability (MTBF)
- Easy installation
- Easy maintenance

### Key Features

- Extended Built-In-Test mode
- Unlimited number of private intercom nets
- Night Vision Goggles (NVG) compatible (optional)
- VOX capabilities
- Emergency & Backup modes
- Individual volume control
- Communication planprogramming
- Digital recording (E1/T1 Line)
- Interface to digital radio
- External Crypto equipment support (optional)
- Wireless headset (optional)
- Radio relay & switching
- Built-in Voice Message Unit
- SELCAL (optional)
- TSO certified
- Intl. TEMPEST approved (optional)
